

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

This reprint of one of the most celebrated translations of the century is based upon three editions: the rare first edition of 1878, of which but 157 copies were privately printed; the edition of 1881, issued for public sale by Reeves and Turner, London; and the Villon Society edition of 1892, in which last Mr. Payne gave his final text, and brought the subject matter of his introduction up to date. Several pages of facsimiles from the 1878 edition are given.

The author of this volume was an intimate friend of Alexander and an ardent supporter of his foreign and domestic policy. The book is full of bright and witty sayings, and presents a remarkably true portrait of Alexander, who occupied during the first quarter of the nineteenth century as pre-eminent a position in the world of diplomacy as did Napoleon in military affairs. Only two copies of the original of this work are known to exist, from one of which the present translation has been made.

This book undertakes to set forth the facts of primitive poetry, so far as they can be ascertained, and to establish some conclusions, not about the origin of the art as outcome of an individual creative fancy, but about the beginnings and development of poetry as a social institution, as an element in the life of early man.

"My real object in preparing the book is to awake, if necessary, an interest in my subject and to stimulate my readers to go further in the study of character afforded by the literature of the Eighteenth Century. If he once enters the path the charm of style, the elegance of execution, the fertility of the subject of great writers cannot fail to lead him further and further upon such a delightful road."—*From the Preface.*

*Opportunity, and Other Essays and Addresses. 12mo.....	1 00
Bishop Spalding may be said to be Browning and Whitman translated into beautiful prose. In the essays which make up this little volume there is the same power to enkindle aspiration so marked in these poets. The most original contributions are those on "Goethe as an Educator." For them alone the book would be of value to the student. Yet in truth "Opportunity" is a volume such as one might profitably catch up from one's reading table dozens of times in a week.— <i>The Boston Budget.</i>

Most readers of these sketches will feel as if they had learned for the first time of a new people. So unique are the social characteristics of these mountain folk that it is hard to realize that we are reading of citizens of the United States in the nineteenth century. Mrs. Carter paints from life; she does not seek to idealize, but her descriptions do not fail to reveal under the unlovely externals of everyday life the kindly emotions that make the whole world kin.

This is a very spirited and dashing story of life at the Vice-Regal Court in Dublin towards the close of the eighteenth century. The dialogue is lively and witty. Including the Duke of Rutland and Mr. Grattan, many real personages figure in the tale, and the picture of the times is realistic and truthful.

- \*Uncanonized. A Romance of English Monachism. With frontispiece.  
 12mo. .... 1 50

This romance is the life story of Anthony Fitz-Hubert, son of the Archbishop of Canterbury, who abandoned the brilliant career of a favorite at the court of King John to become a monk in order to save his father's soul. The torture of a heroic nature condemned to stifle its ambitions and herd with uncongenial companions, Anthony's stoical endurance of the long agony of a monk's existence, his undivulged love for the Princess Eleanor, his heresy, and his tragic end are told with rare boldness of outline, keenness of insight, and depth of human interest.

"One does not need to read far into 'Uncanonized,' Margaret Horton Potter's latest romance, to understand that this talented young lady is a born story-teller."—*The Chicago Times-Herald*.

"The author has well acquainted herself with the details of the life of the times, and a rich and vivid imagination does the rest."—*The Chicago Evening Post*.

- \*The Cobbler of Nimes. 12mo. .... 1 25  
     A delightful tale of love and heroism in the days of the persecution of the Huguenots in the reign of Louis XIV. The real hero is a little hump-backed cobbler, whose unprepossessing exterior covers a magnanimous and loving soul, and who sacrifices his life to save the lady he adores and the man she loves. The historical incidents are subordinated to the interest of a fascinating character-study and of a story of love touched as if with the purity and freshness of a summer morning.  
 \*The Cardinal's Musketeer. 12mo. .... 1 25  
     A rousing tale of adventure and love whose scenes are laid in France in the time of Richelieu. "From the opening to close a strong interest imbues the pages. It is a tale of adventure told with spirit. A charming love-current runs through it, ending as it should. We commend it as a story, bright and clean, well written, and thoroughly engaging."—*The Independent*.

- \*McLoughlin and Old Oregon. A Chronicle. 12mo. .... 1 50
- Styled by the authoress "a chronicle," this is really a fascinating historical romance. It depicts Oregon in the periods immediately preceding and following that eventful entry of American missionaries among its Indian tribes, in 1836, which soon secured the northwestern territory on the Pacific to the United States. The hero, Dr. John McLoughlin, the "White-Headed Eagle," as the Indians called him, was no less efficient a factor in securing the American occupation than the missionaries themselves.—*The Outlook.*

- \*Stage-Coach and Tavern Days. Illustrated by photographs, gathered by the author, of real things and happenings. Crown 8vo, buckram. .... 2 50
- Accounts of the Indian path, the pack-horse, the saddle and pillion, the Conestoga wagon, the turnpike, the stage-wagon and flying machine precede the detailed career of the stage-coach; closing with the first days of the railroad. The panorama of the tavern, which went on within its walls, the dances, weddings, the meetings of magistrates, selectmen and deacons, trials by jury, vendues of merchandise, book sales, the auctioning of paupers, lottery drawings, turkey-shoots, bull-baitings, the visits of guests of honor, all are fully told, as are the romances of the road, its traditions and tales of interest and the pleasures and pains of old-time travel.

 \*The Last Years of the Nineteenth Century.

This volume is uniform with Mrs. Latimer's popular Nineteenth Century histories, of which it is the continuation to the century's close. In this work a separate section is devoted to the completion of each history in the series; namely, Spain, Italy, Europe in Africa, England, Russia and Turkey, France. So widely known and so highly valued have these books become by virtue of their own intrinsic merits that the new volume needs no further introduction. Mrs. Latimer's large circle of appreciative readers may now anticipate fresh enjoyment of her elegant, familiar, epistolary style, her clear insight, and her judicious selection of interesting matter.

All significant variant readings will be given, and the textual notes printed at the foot of the pages to which they refer, together with the longer literary notes at the back, will explain and illustrate the text in every helpful way.

This is the largest and most important horticultural work ever attempted in North America. It is to describe fully every plant offered in the American horticultural trade, and to give new and full advice on methods of cultivation. It comprises discussions of every fruit, vegetable and flower cultivated in this country, the species running into many thousands. The leading horticulturists and botanists are contributing to it, and all the important articles are signed. A novel feature is the description of the horticultural status of each state, territory and province in North America, with maps. Alaska, Hawaii and Puerto Rico will be found among the rest.

Narrative Volume. By John Burroughs, John Muir, George Bird Grinnell, Charles Keeler, William Healy Dall, Henry Gannett, Bernard E. Fernow and C. Hart Merriam. With about 25 illustrations in color, 50 photogravures and 100 drawings from photographs and paintings by Louis Agassiz Fuertes, Charles Knight, R. Swain Gifford and F. S. Dellenbaugh. Large 8vo.....*net* 10 00

Devoted to a portion of our own country hitherto unknown in any exact scientific sense, this volume contains in popular form the results of the expedition sent in 1890 by Mr. Edward H. Harriman to this land of fogs, glaciers, volcanoes, seals, and gold. The twenty-five eminent scientists (many of them heads of Government Departments) made extensive collections, all the way from British Columbia to Bering Strait, in their various branches of research; no less than twenty-six new species of mammals were discovered, and the results in other branches of zoölogy, in botany, ornithology, geology, etc., were almost as important. Many new glaciers, and a large fjord, hitherto unmapped, were also explored. Technical volumes will follow.
